PROFESSIONAL SUMMARY

Experienced full-stack software developer building web, mobile and cloud applications for clients worldwide. Builds responsive frontends with React and Next.js, cross-platform mobile apps with React Native, and backends and APIs with Node.js, Python (Django, FastAPI) and PHP. Ships with Docker, Kubernetes, GitHub Actions and Vercel, and adds AI features such as chatbots and LLM integrations with the Claude and OpenAI APIs. Holds the IBM Full Stack Software Developer Professional Certificate and focuses on clean, maintainable, well-tested code.

CORE EXPERTISE

- **Frontend:** React, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Framer Motion, React Router, TanStack Query, responsive design, multilingual sites with i18next (Arabic/English, English/Spanish), Figma, Sketch, SEO and web performance, accessibility
- **Mobile:** React Native, cross-platform iOS and Android apps, push notifications, App Store and Google Play publishing
- **Backend:** Node.js, Express, Python (Flask, Django, FastAPI), PHP, REST APIs, OpenAPI and Swagger docs, authentication (JWT, bcrypt, OAuth, cookie sessions), API security (Helmet, rate limiting, Zod validation), microservices, serverless functions, WebSockets, Stripe payments, transactional email
- **Databases:** SQL, MySQL, MongoDB, MongoDB Atlas, TiDB Cloud, object-relational mapping (Django ORM, Mongoose)
- **Cloud and DevOps:** Docker, Docker Compose, Kubernetes, Red Hat OpenShift, Istio, IBM Cloud, CI/CD, GitHub Actions, scheduled jobs (cron), uptime monitoring, Vercel, Render, Firebase, GitHub Pages
- **AI and data:** LLM integration (Claude and OpenAI APIs), Claude tool use, Model Context Protocol (MCP) servers, prompt engineering, AI chatbots, generative AI, IBM Watson, Python for data science (Pandas, NumPy)
- **Testing and practice:** unit testing (Vitest, pytest, Supertest), React Testing Library, end-to-end testing with Playwright, API mocking (MSW), linting (ESLint, Ruff), Agile and Scrum, Git and GitHub, Vite, software development life cycle
- **Other:** Java, Swift and Xcode, UI/UX design, data visualisation
- **Soft skills:** problem solving, fast learning, attention to detail, teamwork, client communication

EXPERIENCE

Freelance Full-Stack Developer (Web, Mobile and Cloud) *2024 to Present*

Self-employed (Upwork, Fiverr, direct clients)

- Built and launched the corporate website for United Group for Financial Consultations (unitedgroupeg.com) in Arabic and English with React, PHP and MySQL.
- Handled projects end to end, from UI/UX design and React or React Native frontends to Node.js, Python and PHP backends, databases and cloud deployment.

SELECTED PROJECTS

- **United Group** (client): corporate website for a financial consulting firm. *React, PHP, MySQL, Arabic/English.*
- **TaskFlow**: task manager for small teams with project boards, permissions, comments and a documented REST API built to also serve a mobile app. *TypeScript, React, Node.js, Express, MongoDB, JWT auth, Docker, GitHub Actions, Vercel.*
- **Quill**: AI assistant that answers questions about an uploaded PDF or CSV with cited sources and charts. *Python, FastAPI, Claude API (streaming, tool use, prompt caching), Pandas, Docker, Vercel.*

- **Lumen**: SaaS starter with sign-in, subscription billing, a customer dashboard and end-to-end tests. *Next.js, TypeScript, Tailwind, Stripe, GitHub OAuth, Playwright, Vercel.*
- **Cedar Clinic**: clinic appointment booking with patient accounts, a front-desk dashboard and email reminders. *Python, Django, MySQL, Docker, Kubernetes, GitHub Actions, Vercel.*
- **Essence**: responsive e-commerce storefront in English and Spanish. *React, Tailwind, Framer Motion, i18n.*
- **Pulsar**: SaaS dashboard with interactive data visualisation. *React, Tailwind.*
- **Nestly**: real estate platform UI. *React, Tailwind.*
- **Saffron**: restaurant site with menu and reservations. *React, Tailwind.*
- **Alex Rivera**: animated personal portfolio template for a software engineer. *React, Tailwind, Framer Motion.*

EDUCATION AND CERTIFICATIONS

- **Computer Science and Engineering**, German University in Cairo (GUC)
- **IBM Full Stack Software Developer Professional Certificate**, IBM via Coursera. Covered React, Node.js and Express, Python with Flask and Django, Docker, Kubernetes and OpenShift, microservices and serverless, and a full-stack capstone project.
